Peer Exchange Questions

1. How is digital transformation changing your industry and impacting your organization? **[All groups]**
2. How is the board going to stay current on digital transformation trends and what will be your specific action plan to prepare for digital transformation?
3. What would you change about your current business model and/or risk management strategy to ensure a successful digital transformation?
4. What performance metrics do you have in place or plan to establish to measure the success and effectiveness of digital transformation implementation?
5. How well is your organization prepared to address the strategic impacts of new technologies? What do you find as opportunities or obstacles in your role (e.g., board chair, CEO)?
6. What have you achieved or wish to achieve from the board-CEO/management collaboration on digital transformation?
7. What are your current talent/recruiting strategies and the reporting structure to drive and ensure digital transformation across the organization? How do you or will you recruit differently at the board level?
8. How are the changing consumer/customer behaviors affecting the needs for digital transformation at your organization and the success of your industry?
9. Knowing that digital transformation is inevitable, describe the ideal board member you would add to your board. Be as specific as possible and don't forget to think outside the box!
